TREATMENT OF STAGE I-III PERIODONTITIS, THE EFP S3 LEVEL CLINICAL PRACTICE GUIDELINE

CONTENTS

Iberopanamerican Federation of Periodontology. FIPP	03
Adoption/Adaptation, by commentary, for the Iberopanamerican Federation of Periodontology (FIPP) of the European Federation of Periodontology (EFP) S3 Level Clinical Practice Guideline (CPG), translated by the Spanish Society of Periodontology (SEPA), treatment of stages I-III periodontitis	06
Original Work – European Federation of Periodontics (EFP)	06
Adaptation/Translation – Spanish Society of Periodontology (SEPA)	06
Introduction	06
Analysis of the conditioning factors in the Latin American context	07
Deployment considerations	11
Monitoring and evaluation	12
Research priorities	12
Conclusions	12
Bibliographic references (Commentary)	12
Spanish Translation of the European Federation of Periodontology (EFP) S3 Level Clinical Practice Guideline - Treatment of stage I-III Periodontitis	15
Original work	16
Abstract and Keywords	17
Clinical relevance	17
Introduction	17
Objective of the guideline	17
Methodology	17
Periodontal diagnosis and classification	21
Clinical recommendations: First step in the treatment of periodontitis	22
Clinical recommendations: Second step of treatment of periodontitis	25
Clinical recommendations: Third step of treatment of periodontitis	32
Clinical Recommendations: Supportive periodontal care	39
Bibliographic references	46
Tables	49
Figures	55
Bibliographic references (Tables and figures)	56
List of acronyms used	57
Description of the Adoption/Adaptation process, through Commentary, by the Iberopanamerican Federation of Periodontics (FIPP)	58
Presentation	58
Process description	58
Bibliographic references (Description of the process)	59
Adoption/Adaptation for Spain of the S3 Level Clinical Practice Guideline of the European Federation of Periodontitis (EFP) – Treatment of stages I-III Periodontitis	60
Original work	61
Abstract and keywords	63
Clinical relevance	63
Introduction	63
Objective of the guideline	63
Methodology	64
Periodontal diagnosis and classification	66
Clinical recommendations: First step in the treatment of periodontitis	67
Clinical recommendations: Second stage in the treatment of periodontitis	72
Clinical recommendations: Third step of treatment of periodontitis	81
Clinical recommendations: Supportive periodontal care	89
